Conclusions

- The big picture stands out (System Engineering Point of View)
- The black boxes must be opened (Scientific Understanding)

Choices need to be made for:

- Priors
- Inadequacy Models
- Domains of Applicability
- Unknown Unknowns?
- When to Ask for more Data, and What to Ask

•••

- The curse of dimensionality is not an enemy (Recall to Efficiency)
 - Sensitivity Analysis
 - Code Optimization
 - Model Reduction

•••
